Conclusion Les tâches demandées ont permis de se familiariser avec : 1. Les bases de la gestion de versions avec Git et GitHub. 2. L'utilisation de PowerShell pour créer et gérer des dossiers. 3. L'hébergement et la gestion de fichiers en ligne sur un dépôt GitHub. 4. L'importance de documenter les travaux effectués et de conserver une organisation structurée. Le projet a été complété avec succès, et tous les fichiers sont désormais disponibles dans le dépôt GitHub TD.
